Excellent body language, confidence and vocal tone. The pace was great and story telling amazing. great job. I think your speed was perfect

Very natural body language, liked that you walked around in that corner. Excellent talking speed. Minor detail: when you ask a question, provide a few seconds to reflect. Absolutely amazing how you mastered your slides (you perfectly knew your animation). Overall, fantastic presentation!

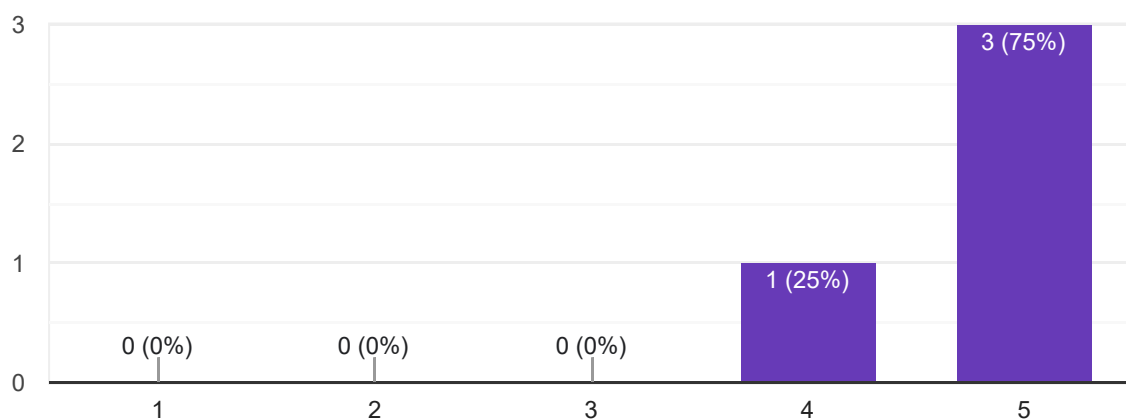

Just for the start: make sure you look at the audience and not the slides in the beginning - gives a stronger start. otherwise very good on delivery.

An awesome presentation delivery (the presenter is professional with good knowledge of the topic)

Overall comments on story telling/structuring of presentation (e.g. clear key messages, recognisable and logical structure, right amount of information):

I very much liked the story telling aspect around USAID and how you framed this and the language you used for it. Also you were able to get the message of the 'urgency' across of this impact. The slides with the stages were great: even though it would have been too much detail to read all, the way you displayed it and talked through it made it very clear. Maybe there could even be an opportunity to simplify these slides further since apparently, the details were not needed to build your story (if I had to critic something). On other slides, you used red boxes for emphasis, that was very good, we followed your narrative also because you put this emphasis. Very nice finish too! Well done!

Very engaging start with USAID and the termination of it

Very good engagement with what the problem is

Logical structure and progression

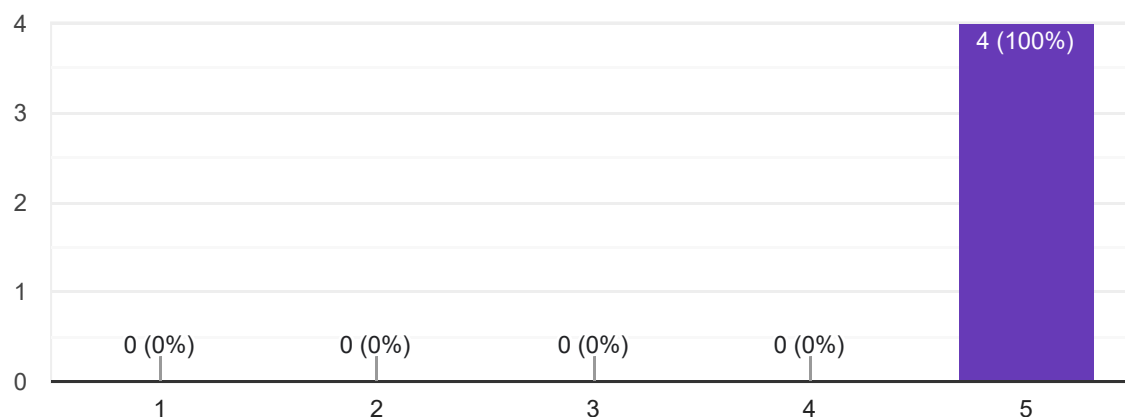

Very good of visualisation (the plots and highlighting) to aid in the storytelling, and very coherent

Very clear message

Good and readable font size

Not commenting on your slide design as it was, in my opinion, perfect!

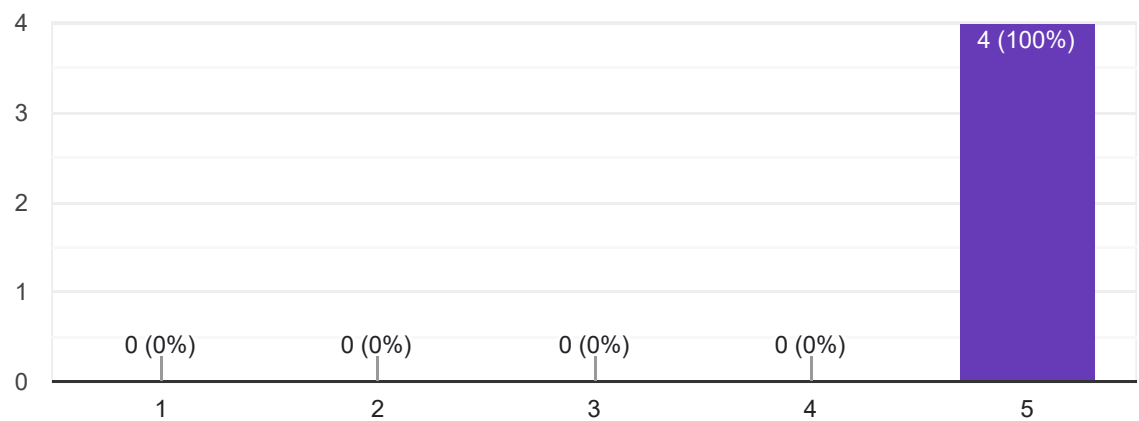

Neat slides with adequate animation enhancing the unfolding of information.
