Backup session?	April 21, 2025...?	

**Short student
presentations
in each lecture**

Course objectives

Main objectives of this course are:

- To develop and **refresh current presentation skills**
- To prepare participants to **speak with greater control** and charisma in front of others

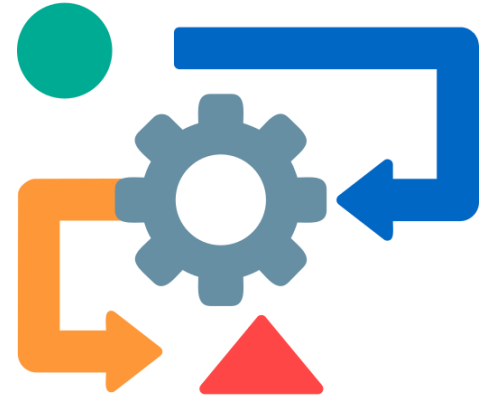

Course methodology

How to achieve the objectives:

- Give students many opportunities to **present**
- **Theoretical knowledge** on presentation skills
- **Assistance** in preparing a presentation
- **Individual feedback** on your presentations

*Practice
makes
the
master*

Course organisation

Workload: 30 hours

- Lectures (contact hours): 7 lessons of 2 hours = 14 hours
- Reading and preparing for **presentations**: 16 hours

Handouts for each lecture and accompanying literature

- Available on ADAM

Interactive sessions

- Questions are welcome anytime
- Open for discussions

Presentations

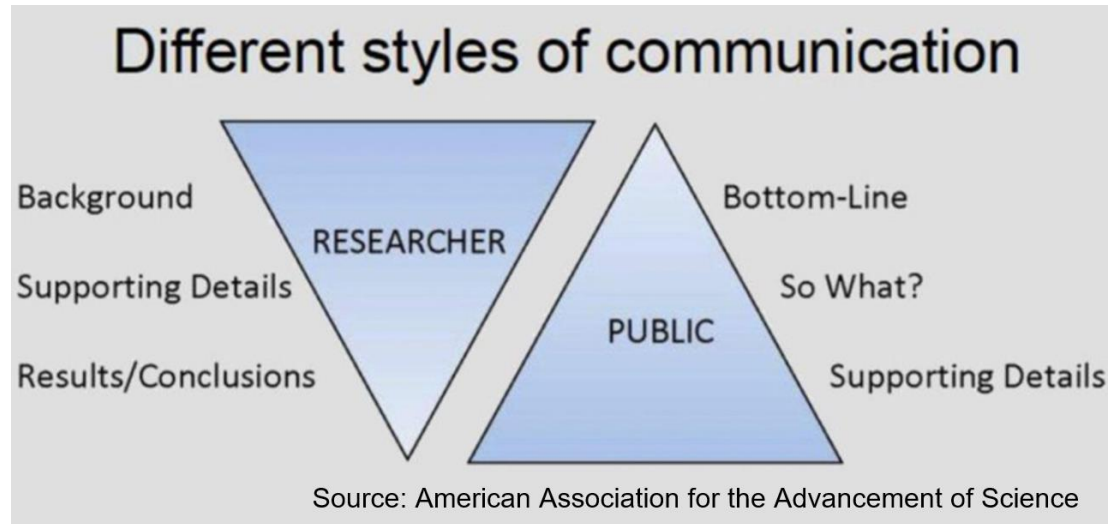

Each student will prepare and deliver a scientific presentation

→ Choose a **scientific paper** that you would like to present

Personal introductions

Scientists are trained to describe a ton of details and background information before entering the results:

- **Scientific audience:** fine, but degree of detail needs to be adjusted to match given format
- **Public, media, etc.:** deliver key points or findings very early and be concise!

Personal introductions – Elevator pitch

Elevator pitch: brief, persuasive speech used to spark interest in in a project, idea, product **or person**

- A good elevator pitch should last no longer than a short elevator ride of 20-30 seconds, hence the name

Introducing yourself → **Why should we have YOU in our course!?**

- Message 1
- Message 2
- Message 3

Time to prepare

Time keeping!
(30 seconds)

What were the 3
main messages?

Swiss TPH

Thank you!
