Communication channels

Effective presentation skills

Mirko Winkler & Astrid Knoblauch
Swiss TPH, 24 February 2025

Presentation styles

Which style is the perfect fit for YOUR presentation depends on:

- **You:** personality, preference, capacity, skill set, etc...
 - E.g. do you want people to focus on you or rather your slides?
- **The target audience**
 - E.g. expectations (venue, event)
 - E.g. facts/evidence versus entertainment (serious versus fun)

What is an “effective presentation”?

An effective presentation:

- **Creates interest**
- Succeeds in **maintaining attention**
- Has a **lasting impact**

Course plan

	Contents	Lecturers/tutors
Session 1 Feb 17. 2025	Overview and Organisation; and Presentation styles	All
Session 2 Feb 24. 2025	Communication channels; and Developing a story line (I)	Mirko W., Astrid K.

Session 5 March 24, 2025	Student's presentations (→ 10-minute presentations)	All
Session 6 March 31, 2025	Student's presentations	All
Session 7 April 7, 2025	Student's presentations	All
Backup session?	April 14, 2025...?	

**Short student
presentations
in each lecture**

What “communication channels” do we use when presenting?

➤ *Please discuss for 1 minute*

Communication channels

What communication channels do we have?

- **Verbal communication**
- **Non-verbal communication**
 - Pitch, tone and speed (how you say something)
 - Body language, appearance, distance, eye contact, touch, etc.
- **Visuals, sound, etc.**
 - Slides, object(s), imagination, etc.

YOU

} External
Aids/tools

Communication channels

What communication channels do we have?

- **Verbal communication**
- **Non-verbal communication**
 - **Pitch, tone** and speed (how you say something)

PITCH	V E R S U S	TONE
Pitch refers to the degree of highness or lowness of a tone		Tone refers to a musical or vocal sound with reference to its pitch, quality, and strength

Communication channels

What communication channels do we have?

- Verbal communication
- Non-verbal communication
 - Pitch, tone and speed (how you say something)
 - **Body language, appearance, distance, eye contact, touch, etc.**

Communication channels

What communication channels do we have?

- Verbal communication (**words**)
- Non-verbal communication
 - **Pitch, tone and speed** (how you say something)
 - **Body language**, appearance, distance, eye contact, touch, etc.

What do we absorb the most when somebody presents?

Communication channels

Verbal *versus* non-verbal communication

- When people talk to us we absorb:
 - 7% of what they are saying
 - **55% from body language**
 - **38% from the tone and inflections of the words**

Communication channels

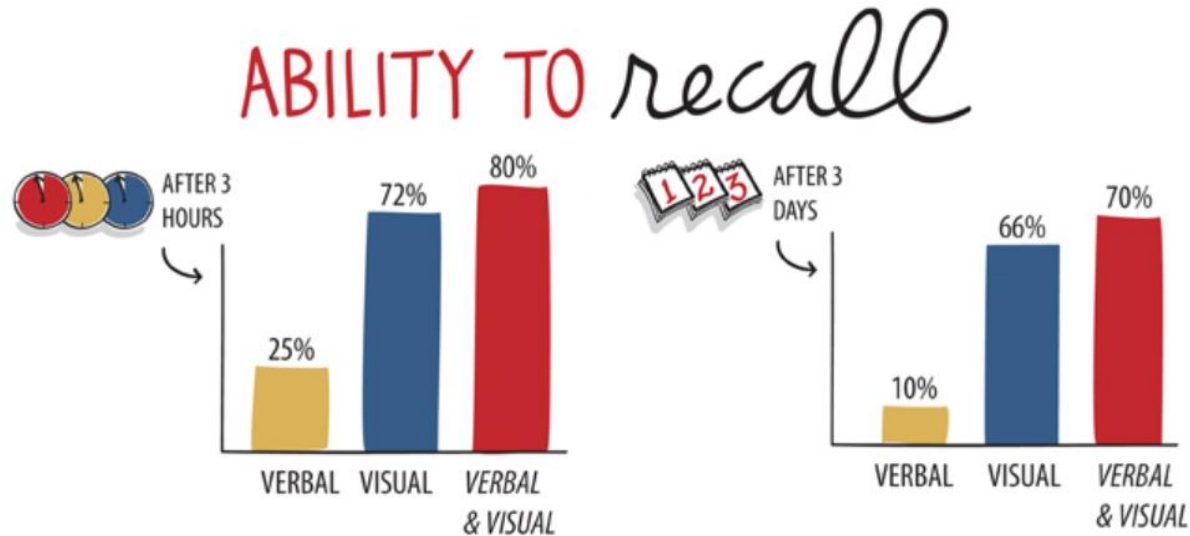

Verbal *versus* non-verbal communication

Communication channels

Ability recall

- It is the combination of visual, verbal and non-verbal communication that plays the trick!

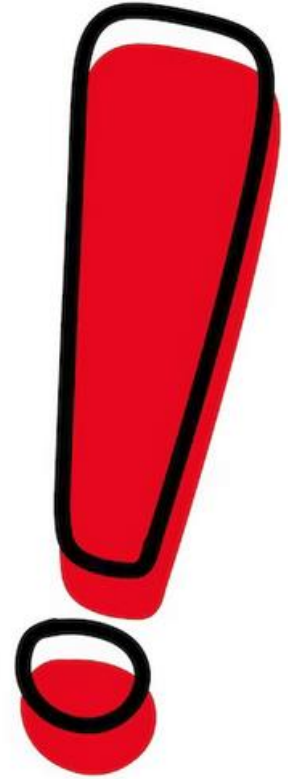

Communication channels

- **Verbal communication**
- **Non-verbal communication**
- **Visuals, sound, etc.** ← **What value added by visuals?**
 - Picture, graphic, object, piece of film, etc., used to illustrate or accompany something

Communication channels

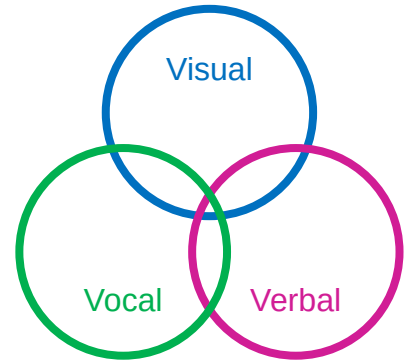

- Values added by visuals
 - Increase **understanding**
 - **Save time** (a picture is worth a thousand words; though preparing a visual may take time...)
 - **Enhance attention** (entertainment factor)
 - **Provide confidence** it what is presented
 - Trigger **emotions**
 - **Humor...!**
 - Help **control nervousness**
 - Increase **ability to recall** what was presented

Exercise – Sell your product...!

- **Try to play with your voice** (tone, pitch) **and body language!**
- Elevator pitch style: 30 seconds, no more
 - Reflect on your key messages first
- No immediate feedback
- Voting...
- Reflection on what made the best selling pitches the best

***5 Minutes to prepare
(→ few key messages)***
